DETAILED ACTION

Allowable Subject Matter

1. Claims 7 and 9-13 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments of August 17, 2004 with respect to claim 7 have been fully considered and are persuasive.

The allowability of the claims resides, at least in part, that the closest prior art of record **Morgan et al. (US 5,379,237)** does not disclose or suggest, alone or in combination the step of:

Regarding independent claim 7, **defects are detected in the course of the rolling process internally by means of ultrasound testing and externally by means of inductive testing, wherein deformation steps located between the internal test and the external test are taken into consideration and defect detection and the marking command take place only after a pre-set time period dependent on rolling speed has elapsed from the start of the material test**, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2125

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
